

SAN FANTINO St John's wort oil

Ingredients: St John's wort flowers, olive oil.

Production: 3 litre

Price: 10 euro for a 100 ml bottle

Hypericum Perforatum, also known St John's wort, has been used for centuries to heal wounds and skin irritations. It is used to treat bruises and scrapes, inflammation and muscle pain, first degree burns, wounds, bug bites, hemorrhoids, and nerve pain.

We pick the flowers in May and June and infuse them in olive oil for about three months.

We then filter the oil and fill it into bottles.
