About Antonia

Dancer, performer, yoga and therapeutic movement instructor, astrologer, nature therapeutics

and massage therapist, Antonia has been in the last ten years sharing her passion about healing arts, yoga, belly dance, improvisation and free movement, art and creative expression in her classes as well as in her astrology readings, healing sessions and performances.

Yoga

For over 10 years yoga has been a part of her personal practice. Her influences range from different traditions such as Kryshnamacharya, Vinyasa, Sivananda, Yin Yoga, and others. She completed her yoga certification with Ganga White and Tracey Rich at the White Lotus Foundation in Santa Barbara, California. The Yoga she practices and shares in her classes has no dogmatism and is intended to respect and honour each individual's own proprioception and inner balance.

Dancing

She began performing with belly dance and over the years she has incorporated elements of other traditions and techniques into her performances, such as the release, body-mind centering and authentic movement and improvisation, making her performances conceptual, open and mystical. She often combines live music, poetry and ceremonial rituals in her performances which help the dance develop and evolve in an improvisatory and creative nature.

Massage Therapies

Since 2005 she has been practicing a style of therapeutic bodywork that combines different techniques such as deep tissue massage, polarity therapy, core synchronism, reflexology, shiatsu, medical qi gong, reiki, aromatherapy and crystal therapy. 60 and 90 minutes treatments available by appointment at additional cost, advance booking advised.

Our well balanced, imaginative and delicious food is based on Mediterranean flavours and is freshly made from locally grown organic produce, combining a healthy balance of raw and
